ABOUT ME

I am a skilled graphic designer with three years of experience in the field, including one year specializing in product design. Continuously seeking growth, I am now focusing on web development, where I have successfully designed and developed two websites. Passionate about blending my creative expertise with technological advancements, I strive to deliver visually stunning and functional designs.

TECHNICAL SKILLS

Technologies: Graphics Designs, Product Design, Packaging Design, Branding Design, HTML, CSS, JavaScript, Bootstrap, NodeJS, Express, jQuery.

Tools: Photoshop, Figma, Adobe Illustrator, Adobe XD, GitHub, Netlify, Visual Studio, Postman.

Personal projects

Fresh green (skills**: UI design, user experience)**
- Created a mobile app wireframe and converted it into a user-friendly mobile application
  Link: Fresh-green

Jmega Electric (skills: **HTML, CSS, JavaScript, responsive design)**
- Built a fully responsive website for Jmega Electric. This project demonstrates my ability to create and utilize my web development skills to enhance user experience and increase engagement.
  Link: Jmega
